

# AI TRANSCRIPTION

Speed up your legal workflows and turn hours of court proceedings into accurate, searchable transcripts—with our advanced AI-driven platform.

## Key Benefits

### Multi-Voice Recognition

The AI-based speech recognition is able to identify and distinguish different voices.

### High Accuracy

AI transcription and focussed human review based on confidence levels guarantee reliable results.

### Data Security

Our AI platform handles data securely and in conformity with GDPR regulations.

### Cost-Effective

Affordable pricing makes full transcripts practical for every case.

### Rapid Delivery

Upload court or deposition videos and get searchable transcripts in return.

## How It Works

### Record

Capture video from any hearing, deposition, or session.

### Upload

Securely transfer your file to WAIYS in a few clicks.

### Process

The AI identifies speakers, transcribes automatically, and flags passages for human review.

### Access

Receive a refined, searchable transcript in return.
